Today, [Discogs](#) launches quarterly reporting from three key performance indicators within the Discogs Database and Marketplace. Discogs breaks down the increasing growth of User Collections based on New (*inclusive of reissues*) and Catalog releases in addition to Database Submissions and the Most Expensive Items Sold via Discogs over the course of Q3 of 2018. A new look into our Discogs sales data is the Top 20 Best Selling Release Variations chart, an authoritative look at the distinct release variants that are selling across the Discogs Marketplace. By breaking sales down to a variant level, releases like **Peggy Gou's** Vinyl variant of [Once](#) (March 2, 2018, Ninja Tune) surfaces as a leading release in opposition to the hundreds of variants sometimes found under catalog titles rolled under a singular Master Release.
